

Product Overview

Compact retractable fall arrest block designed for working at height with strong UHMWPE webbing, shock absorber, and durable housing for safe industrial use.

Certifications & Norms

EN 361:2002

Features

Strong Webbing

Fall Protection

Adjustable Fit

Heavy Duty Hook

Applications

- Working at Height
- Ladder Climbing

Technical Details

Product Description	Lightweight retractable fall arrest block with shock pack, swivel hook, and quick braking system for height safety.
Material Composition	UHMWPE Webbing, Plastic Housing, Aluminium Hook
Weight (g / lbs)	2.80 kg
Color / Available Colors	N/A
High-Visibility / Reflective Details	N/A
Size Range & Adjustment	Length 1.8 m
Airflow / Ventilation Features	N/A
Fastening / Closure System	Swivel snap hook connection
Accessory & Attachment Compatibility	Compatible with safety harness and fall arrest system
Performance & Protection Rating	20 kN breaking strength, Safe load 100 kg
Water / Weather Resistance	N/A
User Comfort Features	Lightweight, compact design
Usage Lifespan	N/A
Manufacturing Lifespan	N/A
Cleaning, Care & Storage	Store in dry place away from sunlight, heat, and moisture. Clean with dry cloth.
Custom Branding Options	N/A
Packaging	1 piece per box
Country of Origin	N/A
